Geo. W. P. Hunt, member of the council from this county, left for Phoenix on Monday, and Leroy Ikenberry, our representative, took his departure for the capital this morning, accompanied by his wife.

W. S. Laird, son of A. C. Laird, secretary and treasurer of the Gila Valley, Globe & Northern Railway Company, died at Safford, on Jan. 8, of diphtheria and heart failure. On the day previous he was walking about and was supposed to be convalescent. W. S. Laird was an exemplary young man and his sudden death is a sad blow to his relatives and friends. The remains were taken to Los Angeles for burial.

J. D. Rawlings was injured by falling rock, in a mine at the Lost Gulch mine, at 2:30 o'clock a. m. on Wednesday. Dr. T. S. Collins was summoned and prescribed the necessary treatment. He found Rawlings considerably bruised—a collar bone, and probably a rib fractured, and one of his ankles sprained and dislocated. Unless Rawlings sustained internal injuries, his early recovery is assured.

A grand masquerade ball will be given on Washington's birthday, February 22, at Parker's hall. There will be four pieces of music. Floor committee: L. C. Woods, A. Flood, Knight Parker and A. Moore. Admission \$1.00; ladies free.

Globe has been almost deluged with water this week, and the rains appear to have been general. The ground has received a thorough soaking and the water sources in the mountains replenished. The rain ceased last night, but the skies are still overcast and a further precipitation is probable. The wet weather interferes with teaming and surface work about the mines, but is nevertheless of incalculable benefit to the country, and especially to the live stock interest.

Roberto Sullivan and Octaviano Jauraz, the two Mexicans who cut Thiofilo Ramirez, near Kellner's saw mill, Jan. 5, were captured by Under sheriff Joe McKinney, of Gila county, and M. M. Hickey, of Florence, on Friday last, near Pinalito station on the Southern Pacific railroad. Mr. McKinney returned to Globe last Monday with his prisoners. He is deserving of great credit for the energetic pursuit and capture of the offenders. The examination of the prisoners has been deferred until Ramirez is able to appear in court. His wounds are serious but recovery is now assured.

Interesting mining notes received too late for insertion in this issue, will be published next week.

Col. J. W. Fleming, of the Black Warrior Copper Co., is expected to arrive within a few days.

John B. Earle is a recent arrival from Florence. He expects to become a resident of Globe.

A team will be sent out to Geronimo Friday to meet E. F. Kellner, who is expected to reach Globe Saturday evening.

The storm has interfered with the surface work of the United Globe mines, and retarded the completion of their tramway, which a few days good weather will enable them to finish.

The rise of water in Pinal creek served a useful purpose by carrying away the granulated slag from the Old Dominion Copper Co's big furnace that had accumulated in the channel.

G. S. Van Wageningen returned on Friday last from a visit of several months' duration with his family in Los Angeles. Mrs. Van Wageningen and children are enjoying excellent health and are greatly pleased with their new home.

The Ladies' Aid Society gives an entertainment at Parker's hall, on the 20th inst., next Wednesday. It consists of a concert followed by a farce-comedy in two acts. The play is one of those bright, witty things in vogue of late years in all large cities, and its shafts are directed against society.

Grant Allison and his brother-in-law, Bert King, of Schenectady, N. Y., were here from San Carlos yesterday. Mr. King came to San Carlos from the East last week in response to a telegram conveying the deplorable news of the death of his sister, Mrs. Allison. The gentlemen returned to the agency to day.

The Hudson Reservoir Company, which proposes to store the waters of the Salt river above the gorge through the Superstition mountains, has secured government patent to their reservoir and dam locations and are in position to push the work when the necessary funds for completion shall have been secured, and that has probably been done; so we can anticipate active operations on that enterprise before the close of the spring months.—Phoenix Herald.

The Herald is mistaken in reference to patent to the reservoir site which covers the fertile valley of Upper Salt river, in Gila county, and is dotted with productive farms, many of which are patented land, while others are held by the right of possession. Consequently, the Hudson Reservoir Company can secure title to most of the land in the valley only by purchase.

I want 10,000 head of steers and stock for spring delivery.

### The Discovery of the Jerome Mines.

The Arizona Mining News, in giving a review of the past year's progress at Jerome, incorporates an alleged account of the discovery of the mining claims now owned by the United Verde Copper Company. The News says: "It was in 1876 that George V. Kell, now living in Tonto Basin; John Dougherty and Judge Riley, both of whom are now dead, and Capt. John Boyd, now a resident of Globe, four prospectors, first located mining claims now included in the United Verde group."

For the sake of the truth of history we will give the facts in relation to the discovery of that now famous mining property, as furnished us by Capt. John D. Boyd, the only survivor of the party who discovered them.

It was in December, 1875, that John O'Dougherty, Doc O'Dougherty and John D. Boyd left Ploche, Nev., thoroughly equipped for a prospecting trip into Arizona, their objective points being Globe and the Chiricahua mountains. Leaving Prescott in January, 1876, they headed for the Verde river and followed that stream until they came in sight of the Black Hills. Finding some doubt, they prospected that region and finally made their first mining locations near the head of a gulch to which they gave the name of Bitter creek, because of the acrid taste of the water. These locations were the North and South Chrome, North and South Azure, North and South Venture, and the Gift, Cliff, Oak and other mines, and all of those mentioned by name, excepting the Cliff and Oak, are included in the United Verde group.

Capt. Boyd and his associates made the laws of the Verde mining district, and these laws and the original location notes were read in evidence in the case of Jordan vs. Duke, recently tried in the district court for Pima county, at Tucson, in October last, the controversy being over the title to a portion of the Oak mine.

Neither Judge Josiah Riley nor G. V. Kell were of the party that located the United Verde group of mines. Judge Riley was at that time a resident of Nevada and came to Arizona at the solicitation of John O'Dougherty, who located him in several outside mines, which together with the original locations comprised the property of the Mazatzal Mining Company, which was organized, and recorded at Prescott. Judge Riley was interested more in the compilation of a book on popular government than in the mines, and requiring money for the publication of his work, he was constantly importing his associates to sell, which they finally did, sacrificing one of the most valuable mining properties in America.

When the Verde mining district was organized, G. V. Kell was made recorder. He then lived on the Indian reservation, where Kewagor and Haskell now have their fruit orchard. Kell had no part in the location of the Jerome mines. The Boyd and O'Dougherty party felt kindly toward him, he having from time to time brought venison to their camp, and as a recompense John O'Dougherty gave him 50 feet in the Gift claim, which was all the interest he had with them, as the records in the recorder's office at Prescott will show.

After locating the Jerome mines the Boyd and O'Dougherty party went into Tonto Basin, and in May, 1876, discovered the Mazatzal mines, known as the Hornet, north and south, and the Silver Zone, north and south, which were recorded in Yavapai county in 1877. These were the first mines discovered in Tonto Basin, and the locations built the first roads into that district and brought in the first machinery. The party did a large amount of development upon them, having expended about \$20,000 in labor and for machinery and roads. Capt. Boyd lived continuously at these mines until the spring of 1895, when certain parties, taking advantage of a technical omission on his part, jumped the property. Certainly a man who has discovered and developed mines and held them for nearly twenty years without dispute should be left in peaceful possession.

Capt. Boyd has followed mining since the early fifties, and from '55 to '58 was foreman of the Rocky Bar gold mine, in Grass Valley, Cal., at that time the richest mine in the state. Ben and Tom Pascoe were then boys there. Capt. Boyd is not only a good miner but a man of genial nature and strict integrity of character, who is most esteemed by those who know him best.

The popularity of Chamberlain's Cough Remedy and the high esteem in which it is held leads us to believe it to be an article of great worth and merit. We have the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. V. Trudell says: "I have always received prompt relief when I used Chamberlain's Cough Remedy. Mr. James Orchard says: 'I am satisfied that Chamberlain's Cough Remedy cured my cold.' Mr. J. M. Hatcher says: 'For three years I have used Chamberlain's Cough Remedy in my family and its results have been satisfactory.' For sale by H. C. Hitchcock, druggist.

### Your Boy Won't Live a Month.

So Mr. Gilman Brown of 24 Mill st., South Gardner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria and he spent three hundred and seventy-five dollars with doctors who finally gave him up saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for lung troubles. Trial bottles free at H. C. Hitchcock's drug store.

### ANNOUNCEMENT.

Hitchcock, Fox, Brookner and Rogers—have prepared two numbers, one of classical music and the other in a lighter vein.

After the entertainment a lunch will be spread at the Pascoe house. This kindness on the part of Boniface and Mrs. Pascoe is appreciated by the Ladies' Aid, and undoubtedly will be by the public.

The general admission will be 50 cents. A few chairs will be reserved, on sale at the drug store, at 75 cents. Lunch will be served at 25 cents per head.

Geo. W. Jenkins, editor of the Santa Maria Times, California, in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by H. C. Hitchcock, druggist.

### The Greatest Menstrual

Is a fit subject for pity if he is troubled with dyspepsia, while his poorest subject who digests properly may well be envied by a prince thus afflicted. The dyspeptic of every clime and nation owe a debt of gratitude to Hostetter's Stomach Bitters, which rescues them from one of the most obstinate and troublesome complaints against which medical skill is directed. On this continent, in Europe and the tropics, this sterling remedy is pre-eminently and justly popular, not only as a stomachic but also as a means of preventing and curing malarial, rheumatic, kidney, bilious and nervous disorders. It improves appetite and sleep, hastens convalescence and the acquisition of vigor after exhausting maladies, and counteracts the infirmities of age. A wine glass full taken before retiring has a tendency to promote tranquil, health yielding sleep, a boon much coveted by nervous invalids.
